Subject: RE: Endorsement write-up

Hi Roger, here is my endorsement

"Roger Failmezger is definitely one of the most knowledgeable and innovative pressuremeter expert in the country today".

By the way, I am running for ASCE President and would appreciate your endorsement as well. No need to do anything right now but if you agree I will be in touch with more guidance when the time comes.

Tale care, Jean-Louis.

Subject: Endorsement write-up

Dear Jean,

I am updating my website, www.insitusoil.com, and would like to add an endorsement write-up from you. Your endorsement would mean very much to me professionally.

I am performing pressuremeter tests with the slotted casing in sands and gravel next week in Scranton, Pennsylvania (brrr) and then the next week to Miami for more PMT (when you get a call to go to Miami in February, you raise your hand). I will present at the Kansas City conference in April—Joe Waxse called me.

Thank you,

Roger A. Failmezger, P.E., F. ASCE, D GE
President, In-Situ Soil Testing, L.C.
Chairperson for Virginia Chapter of Geo-Institute
